### MERGER OFF.

That Involving the Calumet and Hecla Abandoned.

Boston, Oct. 7.—The abandonment of the merger of the Calumet and Hecla

When you need a Pill

TAKE A

**Brandreth's Pill**

Entirely Vegetable.

For CONSTIPATION, BILIOUSNESS, HEADACHE, DIZZINESS, INDIGESTION

Mining company with nine subsidiary companies was officially announced just before the close of the local copper market yesterday.

The reasons assigned for the action by the directors is the uncertainty as to when the final decision will be rendered in certain suits pending to prevent the merger.

PRIMARY LAW FOR NEW YORK.

Assembly Accepts Senate Amendments to Bill.

Albany, N. Y., Oct. 7.—New York state is to have a direct nomination

law. The Assembly yesterday concurred in the Senate amendments to the Ferris-Blauvelt bill, which now goes to Governor Dix for his expected approval. Immediately after the adoption of the amendments the legislature, which has been in session since January 4, adjourned sine die. The amendments were adopted by a strict party vote, eighty Democrats voting in the affirmative and thirty-six Republicans registering their opposition to the measure.

Sale of outing flannel, dark and light, three cents a yard. Pure white and cream. At Perry's on Saturday.

## J. P. MORGAN TO CRUSH TAFT

Will Oppose His Renomination For Presidency

THE FINANCIER IS BITTER

Because of President's Stand on the Trust Issue—Ready to Fight the President to Finish in Political Battle.

Washington, Oct. 7.—Postmaster General Hitchcock has returned from the aviation meet in New York with the knowledge that if President Taft is renominated and re-elected it will have to be in the face of the house of Morgan. Not only has notice been served on the Taft leaders that they need not expect any financial help from J. P. Morgan and the men who are actively allied with Morgan in big business, but the word has gone out from Mr. Morgan himself to make war on Taft.

From reliable quarters comes the news that when Postmaster General Hitchcock went to New York to attend the aviation meet he sounded certain of the contributions of Mr. Morgan as to whether contributions would be forthcoming to help re-elect Mr. Taft. Instead of getting aid and comfort, or the promise of any, it is declared that Mr. Hitchcock was turned down cold.

In effect the word has gone forth from J. P. Morgan himself that there is a time to make peace and a time to fight, and now is the time to fight.

It is not without reason that for some days past strange rumors have been flitting about in high political circles here that Wall street has turned against President Taft. So far as the powerful influence of Mr. Morgan is concerned this is true. Mr. Morgan is displeased over the attitude of President Taft with respect to the trusts and combinations. It will be recalled that in recent months men like George W. Perkins, Judge E. H. Gary of the steel corporation and others have urged persistently that the Sherman law be amended and that legislation be worked out to permit great combinations of capital to exist under the sheltering supervision of the government.

In contrast, President Taft has not only said the Sherman law is in no need of amendment but he has gone further than this. He gives utterance in his Waterloo speech to what is interpreted by Mr. Morgan and his powerful allies as notice that they must either submit to reorganization of the combinations they control or prosecutions will be relentlessly carried on. Attorney General Wickersham has taken an uncompromising attitude with respect to the rigid enforcement of the Sherman law and is insistent that trust magnates who violate it be thrown into prison.

Under such circumstances, Mr. Morgan and the men about him are not only preparing to resist Taft, but they are giving attention to the question of what man to put into the White House to succeed him. They do not expect to be able to prevent the renomination of the president. They do expect to be able to prevent his re-election.

Governor Judson Harmon is the first choice of the powerful financial group of which Morgan is the centre. But it appears that this group has done some casting about to ascertain the strength of Harmon. Harmon is regarded as an ideal man for president. His record of enforcement of the Sherman law when he was attorney general is sufficiently devoid of anything strenuous to satisfy Mr. Morgan and his friends. But Governor Harmon would be useless if defeated, and it is feared that progressive sentiment in the country is so strong that Harmon would go down to sure defeat.

Coincident with the strange rumors are arising that the Harmon leaders are discouraged. At the same time there is increasing talk of Representative Oscar Underwood of Alabama, chairman of the ways and means committee. It is said that Mr. Morgan and his friends look on Underwood as not only the right kind of a man, but that they regard him as much stronger in capacity to get votes than Harmon. Besides, there is the question of the nomination. The strength of Wilson is such

as to make it extremely doubtful if Harmon can be nominated, but the nomination of a man looked on as a compromise is deemed possible.

Further than this, gossip here has it that men close to Mr. Morgan have been examining into the Champ Clark situation. They are wondering whether Mr. Clark would not be much preferable to Wilson, and it is possible that, if nothing better can be done, the Morgan influence and such conservative Democratic strength as this influence can command will be thrown at the last moment to Clark.

If the Taft campaign cannot get financial help from the house of Morgan, from what source are the sinews of war to come?

Information here is that big campaign contributions will be derived from the Guggenheims and that Senators Smoot and Penrose will be able to command large contributions. Of course it is well understood that whatever contributions are made will have to be made in such fashion as to avoid conflict with the new campaign publicity law.

Whether the hostility of Morgan will help or hinder Mr. Taft remains to be seen. In some quarters it is believed the Taft managers will turn this hostility to shrewd account and use it for the purpose of gaining progressive support.

### CLEARING HOUSE FOR LONELY.

Municipal Marriage Bureau Latest Frill in Des Moines.

Des Moines, Ia., Oct. 7.—The municipal matrimonial bureau is the latest innovation in connection with the Des Moines plan of city government, and Edward Lytton, the mayor's secretary, has been designated general manager of the bureau, which is announced as the "clearing house for lonely souls." The advisory board consists of Dr. H. L. Saylor, city physician; Mayor James Hanna, Horace Susseng, city clerk, and Mr. Lytton.

Women wishing husbands will be requested by Mr. Lytton to send to him their names, addresses and photographs. He will keep a classified waiting list from which to make recommendations to wife seeking applicants.

It has been decided to divide the waiting list into three classes. Class A will contain the names of women between 18 and 25, class B, from 25 to 35 and class C from 35 upward. Men wishing wives will be required to designate the class within which their own age falls.

Mayor Hanna has agreed to marry free of charge all couples matched through the aid of the municipal bureau.

### LAURIER CABINET RESIGNS.

R. L. Borden Accepts Call to Form New Ministry.

Ottawa, Ont., Oct. 7.—The Laurier ministry has resigned and Premier-elect R. L. Borden has accepted the call of his excellency to form a cabinet.

### In Woman's Realm.

The water in which a leg of mutton has been boiled is an excellent basis for onion soup.

Before placing a sponge cake in the oven to bake, sprinkle a little fine white sugar over the top. This will produce the rich brown color that makes bought cake often look so tempting.

Drive a nail through an empty spoon to have a good peg on which to hang things in the kitchen, on the back porch or in the cellar. The spoon will not tear nor stain any clothes, as a nail is apt to do.

In baking cakes, gems and other things which are apt to come out of the pan rough or torn on the bottom if the bottom of the pan is quickly placed on ice or on a cloth that is soaked with cold water the article comes out of the pan easily and perfectly whole.

A chamois will keep soft a long time if, when washed, the soap is not rinsed out, or if you add a few drops of olive oil to the water in which the chamois is washed, says the Newark News. When dry, rub the chamois hard between the hands; in a few moments it will be quite as pliable as when new.

Stains on wall paper, such as are likely to be found over a couch, or beside a fireplace, or anywhere where the head and hands are likely to touch, may be removed with whitening mixed with a little water applied to the stain and allowed to dry, and then well brushed off with a soft brush.

### To Wash Chamois Gloves.

In washing chamois gloves do not wring them or even squeeze dry, as with ordinary glove cleaning. The skins pull easily and wringing breaks the tender fabric. Put the rinsed gloves into a thick Turkish towel and press out most of the moisture. Then hang them in a strong current of air to dry. Fasten the pair together by buttons and hang with fingers down. The shrinking, of which many women complain in chamois glove washing, can be overcome by drying the gloves on the hand after they come from the Turkish towel and a few minutes airing. A pair of glove trees, however, also precludes shrinking. Rub gently until dry. The heat of the hand makes this drying a quicker process than most women imagine and there is little danger of taking cold. Do not neglect rinsing as well as washing in soapy water. But by leaving the soap in the color of the gloves is much improved and the stiffness soon wears off.

Handy Sewing Case.

Take with you on your vacation trip a handy little sewing case made of a strip of flowered cretonne 22 inches long and nine inches wide.

It is a simple thing to make and will prove invaluable when away from home. Bind the edges of the cretonne with wash ribbon matching the color of the flowers, and turn one end over two inches; stitch each edge, divide into thirds and run a row of stitching on these lines, making three small pockets to hold the tape measure, the darning wool and needle case. The other end turn over two inches and stitch down on each edge and at intervals between one and one and one-fourth inches apart. In these little pockets put spools of thread.

Cut two strips of flannel seven inches long and three wide and cross-stitch on the cretonne for pins of various sizes, and with smaller pieces of cretonne form pockets in which to slip the scissors, thimble, and bodkin.

At the center of one end sew a half a yard of ribbon, so that when the case

## CATARRH ATTACKED HEAD BOWELS AND KIDNEYS

Famous Veteran now Healthy and Strong, Thanks to Pe-ru-na.

MR. LEWIS JENKINS.

Veteran of Civil War and Member Famous Merrill's Cavalry.

Mr. Lewis Jenkins, R. F. D. 4, Chillicothe, Livingston Co., Missouri, veteran of the Civil war and member of Merrill's cavalry, writes: "Peruna has built up my health so I can do as much work in a day as a young man of twenty years, and I can recommend it everywhere."

"I was so bad with catarrh of the head and kidneys that I could not sleep at all. I went in a drug store, I saw a few bottles of it, and I asked the druggist if that was what it was put up for and he said it was. So I bought a bottle and took it and it commenced to relieve me so much that I kept on taking it and it cleared everything like catarrh out of the system, and has cleared me of chronic diarrhoea, from camp life of the army of the Civil war."

"I took cold a week ago. I got a bottle of it and am taking it and my cold has about left me."

"I am a man of about sixty-five and can do work of any kind. My strength is powerful, and the people ask me what I did that made me so stout. I tell them I took Peruna and cleared the catarrh out."

"I told the drug man I was not going to do without it if I had to send to the Peruna company. I think there is no

of the latter—called "hotting wax"—is usually a little safer than paraffin.

In the method given above the fruit juice is never heated above 200 degrees Fahrenheit. This tends to preserve the "fresh" flavor of such as strawberry or grape juice, but calls, of course, for extra care. Some juices are little changed in flavor by boiling, and these may often be successfully preserved by simply pouring the boiling juice into hot sterilized bottles and sealing at once. Fruit "shrubs" made with vinegar, tartaric or citric acids and sugar, can usually be treated in this way.

Instead of making jelly during the hot weather—and when, by a curious coincidence, sugar often tends to be at its highest price, many housekeepers now simply put up the carefully sterilized or boiled juice without sugar, converting part or all of it into jelly later, at a more convenient season. Wild fruit juices, obtained during a country vacation, are more easily transported in this form, and can be made into jelly during the winter. Dorothy Dexter.

## ERUPTION CAUSED TERRIBLE SUFFERING

Baby's Body Covered with Large Sores. Seemed to Itch and Burn. Finger Nails Fell Off. Little or No Sleep. Used Cuticura Soap and Ointment. In 6 Weeks Cured.

"When my baby boy was six months old, his body was completely covered with large sores that seemed to itch and burn, and cause terrible suffering. The eruption began in pimples which would open and run, making large sores. His hair came out and finger nails fell off, and the sores were over the entire body, causing little or no sleep for baby or myself. Great scars would come off when I removed his shirt."

"We tried a great many remedies, but nothing would help him. A friend introduced me to try the Cuticura Soap and Ointment. I used the Cuticura Soap and Ointment but a short time before I could see that he was improving, and in six weeks' time he was entirely cured. He had suffered about six weeks before we tried the Cuticura Soap and Ointment although we had tried several other things, and doctors too. I think the Cuticura Remedies will do all that is claimed for them, and a great deal more."

(Signed) Mrs. Noble Tibman, Dodson, Mont., Jan. 28, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp of infants, children and adults. A single cake of Cuticura Soap (25c.) and box of Cuticura Ointment (50c.) are often sufficient. Although sold by druggists and dealers throughout the world, a liberal sample of each, with 32-p. book on the skin, will be sent free, on application to Potter Drug & Chem. Corp., Dept. 18A, Boston.
